

Receive Excellent Care From Our Professional Nurses

A Registered Nurse provides on-site visits weekly and is available to the Resident Assistants (RA) by phone 24-hours a day, seven days a week. A Licensed Practical Nurse (LPN), under the direction of the RN, provides on-site nursing services as well. The nurses ensure your well-being with professional care in prevention, education, and personal support. As your needs change, the entire care team at Orchard Hills is here to help you in a dignified and compassionate manner.

As a resident of Orchard Hills you will benefit from the following nursing services:

- Answer health and medication related questions
- Monitor the effectiveness and potential side effects of medications (i.e. pain, mood, sleep, and behavior medications); update the resident's physician as needed
- Monitor illness trends of residents and staff to assure appropriate actions are taken
- Supervise and monitor each resident's medication regimen
- Fall prevention programming and implementation
- Available 24-hours a day to assist RAs in determining how to respond to a resident's health concern or change in condition
- Lab draws when the hospital / clinic is unable to make an on-site visit
- Assessments for falls, safety, skin, and elopement risk
- Review RAs charting and follow up as needed with RA, resident, family, and physician
- Evaluate non-life threatening medical conditions (i.e. signs of cold or flu, rashes, weight loss, appetite or sleep changes)
- Attend resident / family care conferences (scheduled on an as-needed basis)
